News Release of July 26, 2017

Ripley Boulevard Lane Shift at Campbell Street

Beginning Thursday, July 27, the City of Alpena's Contractor, MacArthur Construction, will be completing a water main connection in Ripley Boulevard at the Campbell Street intersection. This work is being completed as part of the Campbell Street reconstruction project.

Ripley Boulevard will remain open to traffic. However, traffic in the northbound lanes will be shifted, thereby eliminating the center left turn lane at the Campbell Street intersection for the duration of this work.

Signage and traffic barrels will be present to guide traffic around the construction site, but motorists are advised to seek alternate routes.

All local businesses will remain open for the duration of this project. Additional signage will be present to direct access information to local businesses.

This project is expected to take one (1) day to complete unless weather or construction delays occur.
