News Release of October 10, 2016

Second Avenue Bridge Project

Beginning Tuesday, October 11, 2016, the contractor for the Second Avenue Bridge Project will begin setting up equipment. This project is expected to continue through the winter months and spring of 2017, with a completion date of June 10, 2017. This project could be extended due to construction or weather delays.

The public parking lot located behind the former Alpena Power Building (310 N Second Avenue) will be inaccessible to the public effective October 11, 2016, until the completion of the Second Avenue Bridge Project.

The bridge will be open to traffic for the majority of the project; however, the bridge will be closed to all traffic from May 1, 2017, through June 8, 2017. The City will issue additional public notices as needed for short duration lane closures as well as the overall closure in May of 2017.
