News Release of April 30, 2024

Fish Cleaning Station

The Fish Cleaning Station at the Alpena Marina is open today, April 30, 2024. The facility will be open 24 hours. All users are asked to be respectful to others and help keep the facility clean and operational. If freezing temperatures occur, the facility may be closed periodically.

Fishermen are reminded to follow the instructions when using the facility. It is important to turn the grinders on as soon as you start cleaning fish to give the drains a chance to clear out. It is also important to let the grinders run until they shut themselves off. The red shut-off buttons are for emergencies only. When finished, please remove any garbage and clean up behind yourself.

Please use the facility properly and report violations to the Harbormaster.
